**TERMS**—Positively no discount allowed under any circumstances. The issuance of this catalog automatically cancels all quotations previously made. It is understood that all orders accepted are subject to stock at time of delivery. 30 days net; 6% interest for overdue accounts.

**DELIVERY**—Free delivery in the Los Angeles metropolitan area only. We do not pay transportation charges on shipments not covered by our free delivery service. To more distant points we will use safest and cheapest method unless specific instructions are given.

**PACKING**—On orders not delivered in our free delivery zone, less than carload lots, a packing charge of \$1.00 per hundred on lining-out stock will be made. We are not in a position to pack less than carload lots of any items larger than lining out stock, due to the shortage of material and labor.

**CLAIMS**—Claims must be made immediately upon receipt of goods. If an error has been made by us, please notify us promptly, and we shall take pleasure in adjusting the matter. We do not guarantee plants to live. At no time will we be responsible for more than the purchase price of the stock ordered.

We carefully pack all stock, and make every effort to secure prompt and careful handling by the transportation company. Naturally, at this time, we are not always able to arrange for immediate transportation. However, our responsibility ceases upon delivery of stock in good condition to the transportation company. Claims for damage or delay in transit should be filed with the transportation company. In this connection we shall be glad to assist you in any way we can.

While every effort is made to produce the highest quality nursery stock, free of harmful pests, at the present time we cannot guarantee clearance at point of destination. It is therefore to be understood by the buyer that Rosedale's Monrovia Nursery can not be held responsible for the cost of rejected shipments or the transportation charges.

Your orders will be acknowledged promptly and shipments made as quickly as possible, so if your order is not acknowledged please advise us immediately. Sometimes, due to inclement weather, or the press of business and shortage of help, there may be a slight delay in shipping, but we assure you this will not be more than is absolutely necessary.

**NON-WARRANTY**—The Rosedale's Monrovia Nursery will exercise care to have all plants true to name. Nevertheless, it is understood that should any plant prove otherwise, we shall not be liable for any sum greater than that paid for such plant as may prove untrue.

**WE ARE A PINK TICKET NURSERY**—It certifies that stock from which shipment is made has been found free of pests not of general distribution in Los Angeles County and is released for planting in said county without further inspection.

## **YOUR INCREASED NEEDS HAVE BEEN ANTICIPATED AND WE ARE AMPLY PROVIDED TO MEET THEM**

With the successful termination of the war in Europe and the Asiatic conflict well on its way to glorious victory, plans for a prosperous and happy peace time are the order of the day. Thousands of new homes in every community of the land, remodeling of many older homes and the yearning to turn from the cold mechanics of war to their first love, the soil, all contribute to the prospect of a very busy season ahead. We, here at Rosedale's, have taken every measure to provide amply for your increased needs. Never in our long years of experience with the wholesale trade have we planted so abundantly. Approximately one million one-gallon containers and thousands upon thousands of five-gallon specimen and field stock and numerous quantities of lining out stock will be ready to fill your needs by August 1. As always, their vigorous growth and sturdy condition reflects the extreme care taken here at Rosedale's, such as, constant moving, pruning, feeding, watering, pest control and all other necessary attentions. Large though our stock is, however, please bear in mind the definite demand and help us assure you of complete satisfaction by placing your order early and in sufficient quantity to meet your increased needs through the fall and spring. By placing your orders early our shipments to you can be made during the summer and fall months, thereby avoiding loss of sales through lack of stock.

We will greatly appreciate this cooperation, just as we do your patronage, which we shall strive in every way possible to merit.

Yours for every success,

H. E. ROSEDALE.

CAMELLIAS

During the last few years we have been propagating Camellias on a large scale. Although we do not have the largest number of varieties to select from, we have tried to grow the kinds that are most popular with the public. Substantial quantities in all sizes are available. The plants are vigorously healthy and will make a fine showing in your nursery.

Camellia Rosedale's Beauty

Gardenias

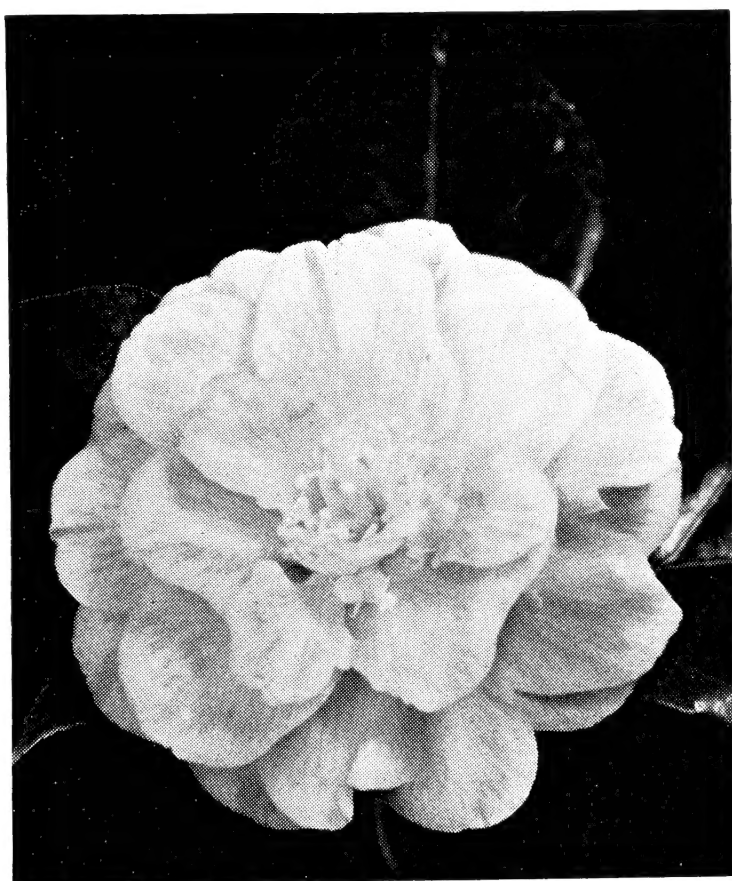

CAMELLIAS
